Sir:

SUPPLEMENTAL DECLARATION

I hereby declare that:

Every error in the patent which was corrected in the present reissue application, and which is not covered by the prior oath(s) and/or declaration(s) submitted with this application, arose without any deceptive intention on the part of the applicant.

An error in the original patent, US Patent No. 6,325,221, was claiming less than entitled to claim in original claims 1-17. Independent claims 1, 2, 14 and 16 are directed to a track device having several parts including elongated track members. Claims 1 and 14 are directed to a track device generally having track segments with longitudinal connections.

DEC 08 2006

Claims 2 and 16 are directed to a track device generally having track segments and a front piece.

Claims 25-30 correct the original claims by claiming the front piece alone; that is, without also claiming all the structure of the track device to which the front panel assembly attaches. Claims 25-30 thus broaden the definition of the invention.

I further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

For the Assignee,
